

2019 Summer Camp Details

South Orange Country Day School offers a Summer Camp experience for our students. At the preschool age, students require continuity in their routine and schedule, and our summer camp offers that continuity. The one change to the regular school year is that all families can create a flexible schedule that suits their needs. You can sign up for the entire summer or for individual weeks, half or full days, and a few days a week.

Daily Routine

We start the day outside for an extended morning play until 9:20am. This is a great time for your children to enjoy the playground and to practice problem solving either for interpersonal conflicts or for devising the rules of play or construction.

All classes will then go inside and get ready for the morning session. Children will put their items away, use the restroom and wash their hands, and then chose their first center. Teachers will work with each child to help them make that first center choice. They will support children to mentally organize what they intend to accomplish in the center and where they may want to go next. Ms. Jill will read to small groups of students throughout the morning.

Around 11:30am we go back outside for play and then at 11:55am our midday students go home and our full day students return inside for lunch and rest period. After rest we continue with our center work and clean up around 2:40pm and head to the playground. Our full day students go home around 3:25pm and our enrichment students stay until either 5:30pm or 6pm.

We will introduce morning sprinklers after a few weeks of camp, and will also have regular visits from special guests including the Fit4Kids, Move n' Groove, Music, and Yoga.

Weekly Themes

We do organize the camp around weekly themes as outlined below:

| | | |
|---------|-----------------------|------------------------|
| Week #1 | July 1 st | Penguins & Polar Bears |
| Week #2 | July 8 th | Construction |
